

Westby House – an *EverPurified*® property!

As our country travels through the Covid-19 pandemic with heightened cleanliness concerns on the minds of everyone, the Westby House has launched its *EverPurified* program. For many years travel trends have shown that small inns/B&B's are the best way to stay if cleanliness is a top consideration.

The *EverPurified* program builds upon the already high cleaning and laundering practices we have in place. As always, our forethought is to provide guests with assurance of a clean room and a comfort level of health.

Our housekeeping staff will continue to use industry standard germ-fighting cleaning products and disinfectants, ozone purifier, and upgrade necessary procedures that are currently in use. The guidelines put out by the CDC are also followed like the 6-foot physical distance from other guests during breakfast service, leaving room sit for 48 hours in-between guests plus frequent washing of hands by staff and guests.

This program is designed to focus on doing our best in providing you a healthy stay, not only in guest rooms but the entire property that will be accessible to our guests throughout the stay.

*EverPurified* is intended to meet the evolving expectations during and after the COVID-19 pandemic. Our ambition is to earn your trust with our commitment to cleanliness and comfort. We look forward to seeing you soon!

Here is what you can expect beyond our already high cleaning and laundering practices with *EverPurified* ?

- High-touch Areas in Guest Room: disinfected light switches/lamps, door and cabinet handles, TV remotes, room key, coffee maker, and more.
- After the cleaning of each guest room an Ozone treatment will follow.
- Increase cleaning frequency of entrance handles and lobby area.
- Contact-less check-in/out (arrival information provided electronically or by phone). Innkeeper available by phone, text or email.
- Paperless credit card transactions.
- Wellness stations of alcohol-clean wipes and sanitizers located throughout the inn.
- The required personal protective equipment is provided for housekeeping staff and kitchen staff.
- Breakfast options of a light breakfast delivered to room or opt-out.
- Door Seal reflecting a *EverPurified* Clean Room. (This confirms no one entered after the room is cleaned.)
- Only registered guests will be allowed within the buildings on the property. No visitors.
- We ask that you do your part in following CDC guidelines before you leave for your trip, during your travels and stay.
